

Scientist Training Programme: Clinical Engineering & Clinical Scientific Computing

Open Day

Wednesday 13th December 2023

8:45 - 12:15 in person (Specialist Rehabilitation Centre, Morriston Hospital)

9:30-11:30 online (via Microsoft Teams)

Rehabilitation Engineering Unit

Specialist Seating, Pressure Ulcer Prevention,
Functional Electrical Stimulation, Design,
Teaching, Testing, Research, Innovation

<https://sbuhb.nhs.wales/hospitals/a-z-hospital-services/rehabilitation-engineering-unit/>

&

Medical Equipment Management Service

Incident investigation, maintenance,
healthcare staff training, and research to
increase patient safety.

Case Study: An infusion pump, originally prone to blockages causing delays in critical pain medication delivery and patient fatalities, has been safeguarded by our trainee's innovation, ensuring continuous patient safety.

This hybrid event will include an opportunity to learn about the role of the departments, information on the training schemes available to pursue a career in this field and an opportunity to ask questions to current staff and trainees.

Please email SBU.REU@wales.nhs.uk to register interest, expressing preference of attending in person or virtually.

A link will be emailed to those registered closer to the event.
